

### OPEN EXCHANGES GREATLY EXPEDITE CONFERENCE WORK

Diplomats Believe They Can See What and What Will Not Be Accomplished.

### ALLYRAND IS REVERSED

Indication That Diplomats Gifted With Speech Are Using It to "Conciliate Their Thoughts"; All Delegates Outspoken in Presenting Views.

By Associated Press.  
WASHINGTON, Nov. 22.—Opinions have been exchanged among the armistice negotiators with such unprecedented freedom that with the conference in its third day some of the experienced diplomats here believe they can see almost with precision what it will and will not be possible to accomplish.

Following the example of the American delegation in laying down a sweeping naval reduction proposal in its opening session the representatives of the other powers have put forward almost without exception the diplomatic indifference that usually fogs such negotiations, and have refused the dictum of "allyrand" that negotiators are to be "diplomats" to "conceal their thoughts."

With the respective heads of the American, British and Japanese delegations working in direct personal conference almost daily on the naval reduction plan there are indications that a settlement on all but details is at hand. In the same way the address of all the nations to commit themselves to general principles relating to the Far East, and the out-looked objections of Japan to discussing the details of that situation seem to have quickened a conviction that a settlement of principles like the four agreed upon yesterday will be the outcome of the Far Eastern negotiations.

In addition the whole question of armament appears to have been pretty well settled by the presentation in the case of France, delivered by Premier Briand, the French statement that at once apparent that definite adjustment of land forces will be possible in the view of France because of existing conditions which she deems threatening and the whole

There remains the important question of fortifications, on which there has been no expression; but which is expected to be the first when the reduction of principles relating to the Far East has gone as far as seems possible.

Consideration of the Far Eastern problems was renewed by the delegates of the nine nations sitting again a committee of the whole with the hope that further general principles could be incorporated in the agreement reached yesterday. In the main the discussions are following the line of the "10 points" suggested by China, and most delegates are confident that in the end most of these points will have been translated into actual agreements on policies. All the present indications point to an understanding other than a treaty as the form to be taken up by the final Far Eastern conference.

Diplomatically such an instrument could be classed along with the gentlemen's agreements of the past regarding China and would not require Senate confirmation. There have been hints that the naval reduction agreement might also take that form but that is said to be one of the stalls still to be adjusted.

WASHINGTON, Nov. 22.—Naval experts of the three major powers still are reviewing today the highly technical questions that have arisen in connection with the American proposals for immediate reduction of the tonnage and a 10-year naval building holiday. The Japanese and British fleets appear to have found some basis of the plan which will require amendment before there is final agreement.

For one thing the British have pointed out the effect on the fleet of the American program would have if it were carried into execution.

There is reason to be sure that both the British and Japanese experts link the United States would come to the end of the holiday period in far better shape than either of the other powers.

That appears to be the basis of a discussion now proceeding.

### Clues Found In Fuller Tomb Desecration Case

There were no developments today in the matter of the desecration of the tomb of the late Alfred M. Fuller, a prominent millionaire and member of his family in Mount Washington cemetery at Perryopolis, according to a caretaker of the cemetery.

### MELLONS GIVE ONLY PART OF TRACT TO PITT

PITTSBURGH, Nov. 22.—It developed today that the gift of a tract of land valued at \$1,600,000 to the University of Pittsburgh, as officially announced by Chancellor John C. Bowman Sunday night, was not entirely on the part of A. W. Mellon secretary of the treasury, and his brother, R. B. Mellon but that they had paid the first installment on the purchase price.

### BELLE VERNON MEN SENTENCED FOR EMBRACERY

Three Hundred Dollars Fine and Costs Imposed by Judge Reppert.

### ILLNESS PLEA IS IGNORED

Edward Layton and Malcolm Ferguson, charged with embracery and bribery in connection with an alleged effort to influence Edward Mackey, a juror at the March term of Fayette county court, during the trial of Frank C. Monahan of Uniontown was on trial, were fined \$300 each and sentenced to pay the costs when called before Judge E. H. Reppert this morning in Uniontown. It was brought out by counsel for the defendants that they were acting for a third person whose name was not made known.

Louis Valentine of New Geneva, who also was involved in a liquor case, was some time ago ordered to sell his business at New Geneva and leave the place. He was granted an extension of time on account of the illness of his wife. Today he applied for a further extension. This was refused, his parole was revoked and he was sent to jail.

James McGirk and Orville Johnson, Uniontown young men, were sentenced to serve two to three and a half years in the Western Penitentiary for holding up H. F. McCormick at the plant of the I. N. Hagan Ice Cream company in Uniontown and robbing the cash register of \$11.20.

The ice cream company refused to prosecute. Amadeus Hagan, manager, joined in a petition for parole. This Judge J. Q. Van Swearingen refused.

### Home Brewing for "Medicinal" Uses Is Banned by Law

FRANKLIN, Nov. 22.—In defining the provisions of the Voner Prohibition Enforcement Act Judge George S. Creswell, president of Franklin county, in an address to the grand jury, declared erroneous the impression that intoxicating liquor can be made in homes in Pennsylvania provided it is consumed there. The law, he said, does not permit this to be done nor may liquor for "medicinal" uses be made in the home.

"There is," said Judge Creswell, "a provision in the law to the effect that certain provisions of the statute should not apply to medicines nor to the external use of alcohol for medicinal purposes. We call your attention to the fact that this term, medicine, means medicine in the common and ordinary acceptance of the term."

"Alcohol is not medicine within the meaning of this statute. It is manufactured or used for beverage purposes. It is for drinking purposes. The law is violated. If everybody might manufacture liquor there might be a still in every house in the Commonwealth and the occupants of the homes might use them till they had tremors and you could not do anything with them. But such is not the law."

Mrs. J. D. Laughrey of Pittsburgh, formerly of Connellsville, is in Mercy hospital to undergo a slight operation.

### Castor Oil Serves New Purpose; Makes Truant Boy Punctual at School

A Connellsville school principal has permanently cured one boy of playing "hook." Under the system used here a very close check is kept on students and when a student is absent the parents are either notified by telephone or mail, or the authorities visit the home.

### FRICK COMPANY ADDS 1,424 OVENS TO ACTIVE LIST

Fires Up Six Operations and Makes Increases at Others.

### 16 PLANTS NOW IN BLAST

Within the past few days a decided impetus has been given coke making at the plants of the H. C. Frick Coke company. Six more long idle plants, with a total of 930 ovens, have been placed in blast and 494 more ovens at plants already in operation have been fired up, making an addition of 1,424 ovens to the active list.

The plants at which coking operations have been most recently resumed, and the number of ovens fired, are: Leasburg No. 2, 200; Leasburg No. 2, 150; Mammoth, 230; Redstone, 100; Standard, 150; Youngstown, 150.

The increases in the number of ovens at plants previously placed in blast have been as follows: Colliers, 50; Hostetter, 60; Leasburg No. 1, 200; Leasburg No. 3, 50; Phillips, 60; Southwest, No. 1, 50; Colonial No. 1, 24.

The company is now making coke at 16 of its plants, with 3,014 ovens in blast, as follows: Colliers, 150; Colliers, 200; Colonial No. 1, 300; Hostetter, 60; Leasburg No. 1, 300; Leasburg No. 2, 200; Leasburg No. 2, 150; Mammoth, 230; Phillips, 200; Redstone, 100; Southwest, No. 1, 150; Standard, 100; York Run, 300; Youngstown, 150; Colonial No. 1, 124.

Thus far only plants equipped with mechanical coke drawers have been placed in operation. It is understood that until further or more decided improvement has taken place in the iron and steel trade, and there is greater need for coke at the furnaces of the United States Steel Corporation, resumption of coking will be confined to mechanical draw ovens.

### Ellsworth Dunn First in Franklin Breeding Contest

The Franklin Township Pig Breeding club held its round-up on the farm of W. R. Dunn on November 12. A. L. Baker, assistant state club leader from State college, did the judging. The boys having pigs in the club are Ellsworth Dunn, Jay C. Dunn, Paul E. Brown and Roy Griffin. All the pigs in the club were pure-bred Poland China gifts farrowed during last spring.

The results secured by the boys were of a very high standard, as can be seen as the pig owned by Paul Brown gained two pounds per day, feeding 112 days and the lowest daily gain in the club was 1.8 pounds. The average daily gain in all club work last year was 1.12 pounds per day.

The first prize, a pure-bred Poland China pig, donated by R. H. Cornish of Uniontown, was won by Ellsworth Dunn. The second prize, a pure-bred Poland China pig, was won by Roy Griffin. The third and fourth prizes, \$5 each, were given by good friends of the club in Connellsville and were awarded to Jay C. Dunn and Paul E. Brown.

There were a number of interesting features brought out by the round-up. The pigs weighed within three pounds of each other when weighed in. The pigs purchased from Mr. Arnold took first and third prizes and the other two purchased from G. A. Cox took second and fourth. This goes to show that even though one starts with good sows feeding plays a big part in the development of future brood sows.

W. A. Cosgrove, cashier of the Vanhook bank, presented the prizes to the boys and gave them an interesting talk.

### GOAL 100, ACTUALITY 146

This is Record of Pennsylvanian Baptist Sunday School Rally Day.

With 100 as the goal in attendance for Rally Day last Sunday the Sunday school of the Pennsylvanian Baptist church came through with a record of 146. The day was one of the most interesting in the history of the school.

During the exercises, held in the morning, the Sunshine class presented the school with a hand embroidered piano scarf, a pulpit cover and a Bible.

### Repairs to Bridge Are Postponed

Awarding of the contract for permanent repairs to the bridge over the Youghiogheny river in Connellsville was postponed this afternoon by the county commissioners until after January 1, during a conference in Uniontown between citizens of Connellsville and the commissioners, at which the proposal for a new and modern bridge was discussed.

In the interim city council and the Youghiogheny Automobile club will name a joint committee which will confer with the West Penn Railways company and the Baltimore & Ohio Railroad and the city engineer will attempt to secure from the corporations toward the new bridge.

With this agreement reached the conference was adjourned about 3 o'clock.

The conference was held in the small courtroom. J. Kirk Reutter, assistant city solicitor spoke first in behalf of the project, asking that the commissioners refrain from awarding the contract for permanent repairs and suggesting that temporary repairs be made, at an estimated expense of \$2,000 to \$3,000. These he said would suffice to enable the city to attempt to find a means of financing a new bridge, the estimated cost of which is \$200,000.

C. B. Planks said he considered that it would not be good business, to make permanent repairs at an expense of \$40,000 to \$50,000, the sum named by the city engineer, when it was known that it contained in the lowest bid for repairs.

Waiting two to three years for a new bridge was discouraged by J. Fred Kuiz.

Attention was called to the danger of the bridge collapsing under the modern loads, it might carry, leading to the loss of what the builders foresaw.

Council member George W. Hibbs said he could not offer much encouragement at this time in the financial line. The county debt now is a million and a half and the city is not in a position to take on the debt of the bridge. He said he had no objection to the proposal, but it seems to be an inclination everywhere on the part of the voters to oppose bond issues. There are 40 to 50 bridges in the county which are in need of repair and which will have to be replaced in a few years, he said.

### A Detour at Poplar Grove Decided Upon

A detour will be constructed about the closed section of the Mount Pleasant road at Poplar Grove and stoppings will be constructed in the abandoned barrens, it was decided today at the meeting of the board of directors of the Youghiogheny river bridge company.

This decision was reached this morning at a conference in the office of General Superintendent Clay F. Lynch of the H. C. Frick Coke company at Scottsdale of officials of the coke company, representatives of the State highway department from Harrisburg and this district and citizens.

It was agreed that it is impossible to save the brick road.

The detour will be constructed through the hollow by the post house. It is understood the expense will be borne by the state.

### BRAITHWAITE CHARGED WITH WIFE'S MURDER

Blood-Stained Money Found in Home Near Ruffsedale by State Police.

### STICKS TO ROBBERY TALE

Officers Make No Effort to Put Him Through "Third Degree." Respecting His Age: Preliminary Hearing Latter Part of This Week or Next.

GREENSBURG, Nov. 22.—Allen Braithwaite, husband of the aged woman who was beaten to death in her home at Ruffsedale last Thursday, was arrested last evening by state police in a search of the home of Braithwaite, and after being questioned at the barracks was lodged in jail this morning at 3 o'clock. It is said a formal charge of murder will be lodged against him.

While they were not inclined to discuss the matter the officers admitted they had found blood-stained money in a search of the home of Braithwaite. The amount was not large and is reported to have been \$21.

Braithwaite was questioned by the officers on numerous phases of the death of his wife. Respecting his age they did not resort to any grilling. Braithwaite, the officers said, adhered to the story told the morning of the murder, that it was committed by robbers; that he was struck over the head by a blackjack and then when he recovered consciousness he found his wife lying dead beside him.

Braithwaite will be arraigned for a preliminary hearing during this week or early next.

After Mrs. Braithwaite was slain the finger of suspicion has been pointed toward the husband, who is 72 years old, but the officers withheld action until after the funeral, though they had been investigating rumors.

The funeral was held Sunday. The arrest was made by Corporal Buckley and Private Telep.

### Removal of Bell Telephone Pole Seems to Be Near

Within a week, it is believed, the Bell telephone pole at Blintown corner, which council seems to have decided will be placed at a new location, there to remain until the view of the company are placed in conduits between the corner and the Pennsylvania railroad. Following a meeting of council last night, at which the telephone company presented an ordinance drawn along the lines suggested at a previous meeting, the measure was sent to Philadelphia today for approval by higher officials of the company. If they put the stamp of approval on it and council is assured that the company will accept the terms of the measure if it is adopted, permission will be given to change the pole to a new spot about 12 feet south of the present location.

There was only one change from two provisions suggested by members of council at the previous meeting. It provides that in case the company moves its exchange to a new location it shall have the authority to extend its conduit system there.

The ordinance provides for completion of the North Pittsburgh street system by December 1, 1922; that between Blintown corner and Lincoln avenue within five years and that between Blintown street and Prospect street within 10 years. It also provides that should connect to East Crawford avenue the conduit and manholes will be placed in advance of the paving.

### "BIG MIKE" INJURED

Tornado Football Player Loses Hair of Finger in Accident.

Michael Spomer, a member of the Tornado football team, known to his fellow players as "Big Mike," suffered a cut on the little finger on Thursday which resulted in the amputation of about half of it the following day. He is not out of the line-up because of the accident.

The finger was mangled when it became caught in a lathe on which Spomer was working at the shops of the Connellsville Machine, Foundry & Steel Casting company.

### \$25,000 Damages Claimed.

PITTSBURGH, Nov. 22.—Damages in the amount of \$25,000 are asked for in a suit filed by Sarah A. Neely against the West Penn Railways company for the death of her husband, Albert Neely, who was struck by a street car of the company June 15, 1921, at Mount Pleasant.

### Light Wanted at Car Stop.

### Markleton Hospital Is Officially Closed; Men In Charge Transferred

Special to The Courier.  
MARKLETON, Nov. 22.—The United States Public Health Service hospital here, in which hundreds of tubercular former service men were cared for and which has been abandoned by the government for the purpose for which it was founded, was officially closed yesterday, the War Department transferring the outpatients to a new hospital to deliver to the representative of the Markleton Hotel company the lease which expired on that date.

### CHILD SEES FATHER KILL HER MOTHER

By Associated Press.  
BALTIMORE, Nov. 22.—Two terror stricken even in sorrow, 12-year-old Helen Connelman last night saw her father kill her mother.

Howard Connelman pressed a pistol against the breast of his wife, Irene C. Connelman and shot her to death in the kitchen of her home, West Baltimore street. Then he ran to the bathroom, sat on the floor and killed himself by shooting through the breast.

### WEST-PENN ADDS KINGWOOD POWER PLANT TO LIST

Work Begun on Transmission Line to Connect It With Present System.

### IN RICH COAL TERRITORY

Announcement has just been made of the purchase by the West Penn Railways company, which controls the West Penn Power company, of the West Virginia & Maryland Power company of Kingwood, W. Va. The company was recently organized for the purpose of supplying electric service from Gratton, W. Va., eastward through Taylor and Preston counties, W. Va., and Garrett county, Md., into the coal fields along the upper Potomac.

The plant at Gratton was recently purchased by the incorporators of the West Virginia & Maryland Power company and the sale to the West Penn interests carries with it the Gratton plant.

Work has already been started on a power transmission line connecting with the present system of the West Penn power company and extending south through the Cheat river basin to Tunnelton, Rowlesburg and Newburg on the main line of the Baltimore & Ohio railroad. Arrangements have been made by which a direct power transmission line will be built from Gratton to Riverdale on the Monongahela river just below Fairport at which point is located the large power plant of the Monongahela Power & Railway company, one of the largest utility companies in West Virginia. Service for Gratton will be purchased from this latter company and it is expected that at an early date the transmission lines from the West Penn system will connect to the line from Fairport, thus making a substantial tie-in connection between the Fairport plant and the West Penn plant.

This purchase adds greatly to the territory served by the West Penn interests and it is believed that the construction of the power lines will do much to open up and develop the rich coal fields throughout the territory they traverse.

### Health Improved, Senator Crow Will Be in His Seat Dec. 5

WASHINGTON, Nov. 22.—Senator William E. Crow was able to pick the reception tendered him by the people of Fayette county, following his induction into office October 21, has been recuperating at Atlantic City, arrived here today. He will remain a day or two attending to his correspondence and getting in touch with affairs.

Crow's health has improved an satisfactorily that he expects to be present at the opening of the regular session of Congress beginning December 5 and will remain here permanently.

### Fayette County Is First, Sweetheart Second, Court Rules

Engagements with the Fayette county court by persons coming under the liquor law hold precedence over matrimonial affairs, Judge E. H. Reppert made this plain this morning in court when counsel for Harry Knight, Connellsville negro, complained that he was unable to pay a fine and costs in a liquor selling case because he was about to be married.

"Tell the defendant that his most important engagement at present is with Fayette county instead of a woman," the court said to counsel.

Knight was sentenced to pay a fine of \$200 and \$3.81 costs by November 1 but was granted an extension to January 1.

### Bible Conference Planned.

The Bible class of the Pennsylvanian Baptist church will hold a Bible conference December 9, 10 and 11. Good speakers will be secured and special music will be arranged. The program will be announced later. Elmer Bigley, a president of the class.

## CLASH IN SENATE

Senators Penrose and Heekin in Tilt During Tax Bill Discussion.

WASHINGTON, Nov. 22.—Disorder marked the beginning of Senate consideration of the conference report on the tax bill, the climax having reached in the unusual proceeding of expelling senatorial remarks from the record.  
The words stricken out were containing a veiled attack against Senators Penrose, Republican, Pennsylvania, and Heekin, Democrat, Alabama, in which Mr. Penrose referred to the "black darkness" of the state represented by Mr. Heekin and the Alabama senator characterized Mr. Penrose's state as "manipulated by predatory interests."

## Take It In Time!

Do you know that by far the larger number of the common ailments of women are not surgical ones; that they are not caused by any serious displacement, tumor, growth, or other marked change?

Do you know that these common ailments produce symptoms that are very much like those caused by the more serious surgical conditions?

Do you know that many women and young girls suffer needlessly from such ailments? More than that, they endanger their health by allowing their ailments to continue and develop into something serious.

If treated early, that is, within a reasonable time after the first warning symptoms appear, serious conditions may often be averted. Therefore, at the first appearance of such symptoms as periodic pains, irregularities, irritability and nervousness, Lydia E. Pinkham's Vegetable Compound should be taken. It is prepared with accuracy and cleanliness from medicinal plants. It contains no narcotics nor poisonous drugs, and can be taken with perfect safety. The Vegetable Compound acts on the conditions which bring about these symptoms in a gentle and efficient manner. The persistent use of it shows itself in the disappearance, one after another, of the disagreeable symptoms. In a word, Lydia E. Pinkham's Vegetable Compound acts as a natural restorative, relieving the present distress and preventing more serious trouble.

## The Block Signals Are Working—

In some respects, human experience is like railroad.

Every moment of the business and social day the block signals are giving right of way to keenness and alertness—while the slow and the heavy must wait on the sidetrack for their chance to move forward.

The ability to "go through" and to "get there" depends much on the poise of body, brain and nerves that comes with correct diet and proper nourishment.

That's why so many choose Grape-Nuts for breakfast and lunch. Served with cream or milk it is completely nourishing, partly pre-digested, and it supplies the vital mineral salts so necessary to full nutrition.

Grape-Nuts has a rich, delightful flavor, is ready to serve on the instant—and is distinctly the food for mental and physical alertness and speed. At all grocers.

## WYETH'S SAGE TEA IN FADED OR GRAY HAIR

Mixed With Sulphur It Darkens So Naturally Nobody Can Tell.

Grandmother kept her hair beautiful, darkened, glossy and attractive in a bowl of Sage Tea and Sulphur. Once her hair took on that dull, faded or streaked appearance, this simple mixture was applied, with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a bottle of this old-time recipe, proved by the addition of other ingredients, all ready to use, at very low cost. This simple mixture can be depended upon to restore natural color and beauty to the hair. A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly it nobody can tell it has been applied. It's so easy to use, too. You simply dampen a comb or soft brush with it, draw it through the hair, taking it strand at a time. By morning, gray hair disappears; after another application, or two, it is restored to its natural color, and looks soft, shiny and beautiful. Advertisement.

### Dawson.

DAWSON, Nov. 22.—A number of friends of town were entertained at a party by Misses Teresa Hagerty, Ella and Elizabeth O'Donnell, and in honor of Miss Anna Hagerty of Homestead. The evening program in cards, music and other games. Luncheon was served. The schools of this place will close a week from Wednesday until Friday.

## Doctor at 82 Finds Mothers Prefer His Formula to New-Fangled Salts And Coal Tar Remedies for Babies

Judgment of 1892 vindicated by world's approval of Dr. Caldwell's Syrup Pepsin, a simple vegetable compound for constipation—So safe thousands give it to babies in arms—Now has largest sale in the world.

When a man is in the 83rd year of his age, as I am, there are certain things he has learned that only time can teach him. The basis of treating sickness has not changed since I left Medical College in 1875, nor since I placed on the market the laxative prescription I had used in my practice, known to druggists and the public since 1892, as Dr. Caldwell's Syrup Pepsin.

From a recent portrait of Dr. W. B. Caldwell, Founder of Dr. Caldwell's Syrup Pepsin, Connelville, Pa., 1892.

Then the treatment of constipation, biliousness, headaches, mental depression, indigestion, sour stomach and other indications that result from constipation was entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of my Dr. Caldwell's Syrup Pepsin, which is a combination of Egyptian Senna and other mild laxative herbs with pepsin.

Recently new medicines have been brought out for constipation that contain calomel, which is mercury, salts of various kinds, minerals, and coal tar. These are all drastic purges, many of them dangerous, and the medical profession

is warning the public against them. Certain coal tar products will depress the heart, certain salts give rise to intestinal poisoning, impaction and rupture of the intestines. If grown people

want to use them no one can deny them the privilege, but they should never be given to children.

The simpler the remedy for constipation, the safer for the child and for you, and the better for the general health of all. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with pills and powders and strong drugs, even if disguised in candy? My remedy, too, costs less than most others, only about a cent a dose. A bottle such as you can find in any drug store, will last a family several months, and all can use it. It is good for the babe in arms because it soothes the taste, gentle in action, and free from narcotics. In the proper dose, given in the directions, it is equally good for the adult. Elderly people will find it especially ideal.

The formula of Dr. Caldwell's Syrup Pepsin is on the cover of every bottle, and the ingredients have the endorsement of the U. S. Pharmacopoeia.

**\$10,000 Worth of Syrup Pepsin Free**

In remembrance of my 83rd birthday I have set aside the sum of Ten Thousand Dollars to be given away in half-dozen bottles of my Syrup Pepsin. Only one Free Trial bottle in a family. All are considered now and then, and here is an opportunity for you and others to try Dr. Caldwell's Syrup Pepsin. COUPON FOR FREE TRIAL BOTTLE. Ask for your free bottle today, simply sending name and address to Dr. W. B. Caldwell, 514 Washington St., Monticello, Ill. Do not postpone this.

## Furloughed Men To Be Recalled At Cumberland

CUMBERLAND, Md., Nov. 22.—Local officials of the Baltimore & Ohio railroad announced that they had definitely received instructions to recall 285 of their furloughed shopmen. Altogether 750 men are to be returned to work, about 500 of this number going to the Mt. Clear shops in Baltimore. This means that practically all the men furloughed here last June will be returned to work. The men will be used in both the heavy repair and back shops to make general repairs to engines which have been laid up since the transportation business fell off. There has been a general upward trend in the amount of freight passing over the Baltimore & Ohio during the past few weeks, which necessitates additional locomotives being pressed into service, many of which have been stored for several months.

## IF WOMEN ONLY KNEW

What a Heap of Happiness It Would Bring to Connelville Homes.

It used to do housework with an aching back. It brings you hours of misery at leisure or at work.

If women only knew the cause—that Backache pains often come from weak kidneys.

Wouldn't you save much needless worry, trouble and expense for weak kidneys? Ask your neighbor.

Read what a Connelville citizen says:

Mrs. Henry Dixon, 118 S. 3rd St., Connelville, Pa., says: "When over 1 year ago I had need for a kidney medicine, it was Doan's Kidney Pills I used. At times in the past I have suffered from pain across my kidneys and sharp catches in my back, when I stooped over. My kidneys would not irregularly, annoying me and I would feel weak and tired and very much run down. An attack of this sort was very much benefited by the use of Doan's Kidney Pills. One box from Doan's Drug Store would always remove the symptoms very quickly." See, at all dealers. Foster-Wilbur Co., Mfrs., Buffalo, N. Y.—Advertisement.

## FINDS CURE FOR BLEEDERS

Paris Physician Successful in Treating Disease With Use of Blood From the Horse.

"Bleeders," as they are called, generally come of families with a history of bleeding. Such sufferers are rarely cured. But Dr. P. Emile-Well of Paris reports in a bulletin of the Société Médicale des Hôpitaux the success he has had with his treatment of the disease, which is called hemophilia. He relates the case of a child of seven, a pronounced bleeder, belonging to one of the classic bleeder families that have been written up in medical annals since the eighteenth century. He gave the boy an injection of 20 cubic centimeters of normal horse serum—that is, horse's blood with the corpuscles extracted—every second month until fifteen injections had been given. The tendency to hemorrhaging seemed to be arrested, and after seven years there has been no sign of its recurrence.

Previous to this Doctor Well had treated seven cases of familiar hemophilia with such injections, all of them successfully, but he never regarded a case as wholly cured until that of this boy. But the fact that he has been free from bleeding for seven years indicates at least that this disease is curable.

TUESDAY EVENING, NOV. 22, 1921.

TO TEST POWERS OF THE  
FEDERAL TRADE COMMISSION.

The outcome of the legal action taken  
by the Federal Trade Commission for  
the purpose of establishing its right  
to require coal, coke, iron, steel and  
other industrial corporations to fur-  
nish monthly reports relating to costs  
of operation, output, sales and other  
data, will be watched with interest in  
the Connelville coke region.

If the contentions of the commis-  
sion are supported this body will be  
in position to compel coal and coke  
companies to comply with its demands  
for any kind of information it may  
wish for the purpose or caprice of the  
commission. If the final decision is ad-  
verse, the commission will be shown  
or its power over the industries and  
be left practically without any good  
reason for its continued existence.

In fact, it has never been satis-  
factorily established that this govern-  
mental body has performed any really  
useful function beyond giving employ-  
ment to a large staff of investigators,  
expert accountants and clerks. During  
the war it muddled up the fuel situa-  
tion by its so-called investigations  
into the cost of mining coal and placed  
upon the operators the burden of em-  
ploying a large force of clerks to fill  
out a multitude of forms. After this  
was over the commission sought to  
continue the exercise of its war  
time powers but a few of the more  
courageous industrial companies, in-  
cluding steel, iron and coke pro-  
ducers, rebelled against furnishing the  
mass of information, largely of a  
confidential character. The commis-  
sion went into court with the final re-  
sult that injunctions were granted  
which sustained the corporations in  
their refusal to make reports.

It having been charged that the  
commission had abused its discretion-  
ary powers in attempting to force its  
demands for reports, action has now  
been instituted with a view to requir-  
ing these allegations to be substantiated  
or disproven. The outcome of  
the action will determine whether this  
body will continue to be circum-  
scribed, as it is now by injunction, or  
given free rein to the exercise of its  
inquisitorial powers. The issue is,  
therefore, of very great interest to  
the producers of coal and coke.

CONDEMNATION OF BIRTH  
CONTROL.

That the first session of the birth  
control conference in New York was  
halted by the police and two women  
speakers placed under arrest, is one  
way of expressing public sentiment  
against this method of propagating an  
abhorrent cult by a few fanatical,  
shallow-brained women and some ad-  
vised men.

But the publication of a protest by  
Archbishop Patrick J. Hayes of the  
New York diocese of the Catholic  
church, is still more emphatic con-  
demnation of the use of the open forum  
for the dissemination of ideas or  
discussions which, the archbishop  
says, "common prudence and decency  
should keep within the walls of a  
clinic, or only for the ears of the ma-  
ture and experienced."

"The laws of God and man, science,  
public policy and human experience,"  
he said, "all were condemnatory of  
birth control, preached by a few ir-  
responsible individuals without indorse-  
ment or approval, as far as I know,  
of a reputable body of physicians or a  
medical society, whose province it is  
to advise the public on such matters."  
He declared the tenets of birth con-  
trol were in direct opposition to the  
opinion of many distinguished scien-  
tists of the world who had been mak-  
ing a serious study of the causes of  
impending deterioration of the race,  
which had been foreseen by well-  
known biologists.

This protest, although coming from  
a high ecclesiastical authority, will  
not be regarded by the public as sec-  
retarian, but as having been voiced in  
the broad spirit of common weal. It  
will be cordially approved by all  
thoughtful persons who realize the ne-  
cessity of protection of the mono-  
gamous marriage, a limitation of di-  
vorce, more children in the families  
of the well-to-do as a moral duty, a  
more sheltered life for mothers and  
an unselfish devotion to the family as  
a patriotic duty.

The December meeting of the mine  
inspectors might probably be held at  
the scene of the Hillcrest fire. It cer-  
tainly would give point to the discus-  
sions as to the dangers and means of  
subduing conflagrations of this kind.

Further increase in price is the only  
hope turkey has for a limitation of  
disarmament.

The Supreme Hour  
Of Civilization

Manufacturers Record.

President Harding's speech at the  
grave of the Unknown Soldier, closing  
with the Lord's prayer, and all the  
solemnity of that occasion, has  
sobered the thought of the world and  
created an atmosphere of great dra-  
matic and strategic importance for the  
launching of the Disarmament Con-  
ference. It might indeed be said that  
the ceremonies had been divinely  
guided to make the world ready for  
the proposition of Secretary Hughes  
which startled mankind with its  
amazing frankness and its far-reach-  
ing possibilities.

Into the hearts of mankind, plowed  
deep and made tender by the emo-  
tions of Armistice Day, were sown the  
seeds which watered by the tears of  
wounded and maimed and fertilized by the pray-  
ers of unnumbered millions in every  
land on earth, will fruitfully into a  
harvest of illimitable good.

How different the setting of this  
conference and the Versailles Peace  
Conference! The former recognized  
Almighty God as the guiding power of  
mankind when men submit themselves  
to His leadership; the latter had no  
time for God and was bent upon carry-  
ing out its will regardless of God's  
will. Their unscrupulous diplomacy,  
boundless selfishness, the grasping  
hand seeking only its own advance-  
ment, the vaunting ambition aiming at  
world management and brooking no  
opposition. Failure was written into  
every line for the unseen hand wrote  
upon the parchment of the treaty:  
"Thou art weighed in the balance and  
found wanting."

Here God was recognized, the  
Divinest prayer ever taught to man  
by Him who spoke as never man  
spoke, invoked God's guidance, and  
the conference opened with a recog-  
nition of the need of Divine help. In  
such an atmosphere envy and jeal-  
ousy, selfishness of nations and indi-  
viduals and personal ambitions for  
glorification, shrink back abashed,  
and temporarily at least inert and  
lifeless.

Through Secretary Hughes, its  
chosen speaker, this nation voiced a  
program daring in its scope, marvel-  
ous in its conception, humane in the  
last degree, and divinely inspired,  
we believe, as a challenge to the  
world, not to war, but to peace, not to  
enmity, but to love.

Never again can any nation wage  
war for selfish ends, for commercial  
aggrandizement, for world domina-  
tion without answering to the awak-  
ened conscience of mankind.

The most momentous hour in hu-  
man history since the Son of God died  
for man's salvation is upon us. We  
are living in "an age of ages telling  
when to live is sublime." God is in  
His Heaven and all is well, for He is  
leading the nations so long as in this  
conference men submit to His guid-  
ance. A new world is rounding into  
form. Let not man fall in this the  
supreme hour of civilization.

## A PRAYER TO THE GOD OF GOLF.

Oh, god of golf, now hear my plea;  
Make a fair putter out of me!  
I do not ask of you too much,  
The champions sure and certain touch,  
The master stroke—just teach me now  
To get a four-foot putt somehow.

Upon the practice green I can  
Get down my ball with any man,  
But when the game grows close and  
tense,  
Somehow I lose all putting sense.  
Teach me, I pray thee, then, to stand  
As one whose brain controls the hand.

Teach me to know that "never up  
is never to get in the cup!"  
Grant me a little sense in this,  
To give the ball a chance to miss;  
And when the line describes a curve,  
Defend me from a false-lying nerve.

Let me be bold, as bold as they  
Who win my golf balls when I play;  
Teach me in every circumstance  
At least to give the ball a chance,  
And let me hope, as other men  
To hole a long one, now and then.

## MORE CALLS ARE MADE FOR SUITS

Women Have Adopted Outfit for Their Uniform—Can Never Die, Maker Says.

### MANY WITH VERY LONG COATS

Three-Quarter Lengths Permit Only Fraction of Skirt to Show—Keep the Straight and Long Line.

It is hard to pry the American woman loose from her friend the tailored suit. It is one of her most becoming assets. She likes it, she feels well dressed when she wears it, and here is the figure that displays it to the very best advantage. And observes a fashion authority, when the cascade says that autumn is here, the suit becomes the first noticeable change in dress expression.

A prominent maker of suits—a man who has devoted the whole of his life to the study of this one by-path in women's wear—said that he had had just as many if not more calls for suits this season as he had had any season in the past. This statement was made in the face of the fact that the general impression seems to be in fashion circles that the suit is losing some of its popularity. Now this tailor believes that the suit can never die. He says he knows that women have adopted it for their uniform, just as the men need the suit for theirs. He realizes the fact that women diverge from the suit in many and varied manners but he says that this costume is the foundation of a wardrobe is just as stable a thing as the coffee they drink for their breakfast.

You ask him, "Does the style of the suit change?" and he wittingly answers that it does most decidedly. Then if you look at it with an untutored eye it is hard to see just where the changes come in. They are subtle and they are slow but he assures you they are changes and the last rite of fashion standard demands that they shall be made.

The encouraging side of all this slowness and subtlety is that it is not greatly noticeable—that the old suit if it is designed along conservative enough lines will last on indefinitely. And, combined with the smart hat and the proper accompaniment of fur, it does itself proud in the marching throng.

#### Length of Skirts.

The lengths of the skirts in the suits it is nice to be able to say have not changed so materially that the change is quick to catch the eye. They seem to be about the same, although they are really longer than those of extreme knee-length ones of the summer. It behooves us to stop and think however that certain members of the community attempted these ultra short affairs and that most of the

Tailored Suit Along the Newer Lines

suit skirts in particular remained a distance of from ten to twelve inches from the floor. And that is what they are to lay—preferably ten but rising to twelve where the figure is tall and slim enough to demand that concession to its own proportions.

There is the sport suit for which America and Americans have become so famous, there is the medium suit for every occasion and there is the dressy suit which this season, has dissolved itself into the costume dress. But each is as popular and as necessary as the other in its own way and each one of them is destined to hold a place in the season's fashions.

Among the tailored suits there are many with coats that are very long. That is they may safely be called three-quarter length for there is only a fraction of a skirt left showing beneath the ending of the coat. Then these suits are cut in such a manner

### "CAP" STUBBS.

HEY! OUCH! WATCHA DOIN'!

that they can keep the straight, long lines for any length. They are totally without faultiness to be sure but they have a meticulous way of keeping straight in spite of everything. Every thing about them is seemingly tightly fitted. The sleeves are indeed so tight that the armholes are round and fitted to a nicety. Sometimes there is a belt set at a low waistline and tied into place. The exact placement of the waistline being in accordance with the individual proportions of the figure. Then, since these three-quarter tailored suits are slit at the sides from the bottom so that the suits have a little of give to them not being keyed to the line of the figure so unreluctantly. A tailored suit of this variety was made with bindings of its own material which material was

in "skin" or in a rich velvet. These were laid on as dusters, and so around every one could see and still feel safe on either side. The color of the suit was a dirty taupe and the shoes had a good looking finish.

#### Save Left Cut Revers

Most of these thick tailored suits have been cut away so that the closings of the coat come just above the waistline. This, this opening leaves room for the vest and duster coat of French blouse. In better times the touch without which the suit is missing nothing, worth of notice.

As for material in the suit, it is well, there are villas and a lot of color suit is a beautiful material. In this case the coat and there are some

soft fine directions and wool velvets suits with more or less of trimming come to us from the French designers and with a certain type of woman are generally accepted and worn in this country. Most of these suits are on a scale with the longer waists and with slightly biased effects at the waistline. Then the outside of the suit is a wide and narrow band around the bottom of the peplum for the cuffs for the collar and some times for a band to run along the line where the closing of the coat is effected. One of these firm Paris was made in that latest of brown shades which the French are pushing this season. It was then trimmed with a lot of silk embroidery in a slight lighter shade of the same color and the trimming was concentrated over

the hips in large triangular sections composed of smaller triangular figures. This was all the trimming there was about the suit for the cuffs of the other loose sleeves were left plain as was also the collar which but was tightly around the throat. The Russ in influence pushes the way to the suit, however more serious fully than it might be to do in other types of costume. The long wide bands of fur and the brilliant colors lend themselves to the designing of the suit with admirable facility.

#### Peacock Green Duvetyn

A Russian blouse suit was made of peacock green duvetyn with a very thick and heavy surface. The blouse of the coat was long enough to

completely cover the hips, and underneath that was a straight sort of peplum of the width of only about five or six inches. There was a twisted girth of heavy silk threads with the longest imaginable tassels ending it. And there were collar and wide cuffs of trimmer in a very dark gray shade of trimmer in a very dark gray shade. Another suit of this same character and general line of cut in a deep rust shade had for trimming an arrangement of heavy loose knots of dark gray wool that were massed together evenly until they took on a surprising look of trimmer or some other lamb's wool fur.

For indeed it is used for trimming many of the winter suits but the fact of the matter is that in most cases it is very sparingly used. There are straight choker collars and the

smallest of cuffs and only seldom is there a band of fur seen around the bottom of the peplum. And the furs are mostly of the short-haired variety for the rule seems to be that, when one wants "fox or sable, then the animal itself must be brought into the sunlight and stretched as the piece of resistance of the street costume.

Suit of Brown Embroidered Duvetyn

## Suppose you had the settling of your neighbor's problem—

**S**UPPOSE it was Brown's case that was up for consideration. Brown is heading in a direction that has brought trouble to a lot of people—a direction known to be full of risks. Brown himself isn't going any too good. There are days when he hits the bumps harder than he can comfortably stand—and he shows it.

There's another road that Brown could travel safely—smooth, comfortable, pleasant, and absolutely safe.

And Brown came to you for advice. And you'd look at the facts and you'd say: "Why, Brown, there's nothing to this thing. It doesn't take any argument to decide this. Turn to the right and take the smooth, safe road, and **Do It Now.**"

Suppose the road Brown is on is the coffee or tea road. Hundreds have had trouble on that road. Doctors have sounded the warning for the public, and rescuer the "no-traffic" sign for the patients—time and time again. The drugs, caffeine in coffee and then in tea, keep whipping the nerves—tending to interfere with sleep, upset digestion, produce high blood pressure, and to wear down health and efficiency by the disturbance of rest and nervous balance. Some folks go a long way on the road, some folks don't seem to notice the jolts—for a while anyway.

But what would you say to Brown about choosing the safe road instead of the risky one?

And suppose Brown were you?

Postum users travel the sunrise road—away from the coffee and tea jolts and risks.

## "There's a Reason" for POSTUM

Postum Cereal Company, Inc.  
Battle Creek, Mich.

Postum is free from the possibility of harm for any one, and full of comfort and satisfaction for every one. Even the little children can share in the delights of a hot, mealtime cup of Postum.

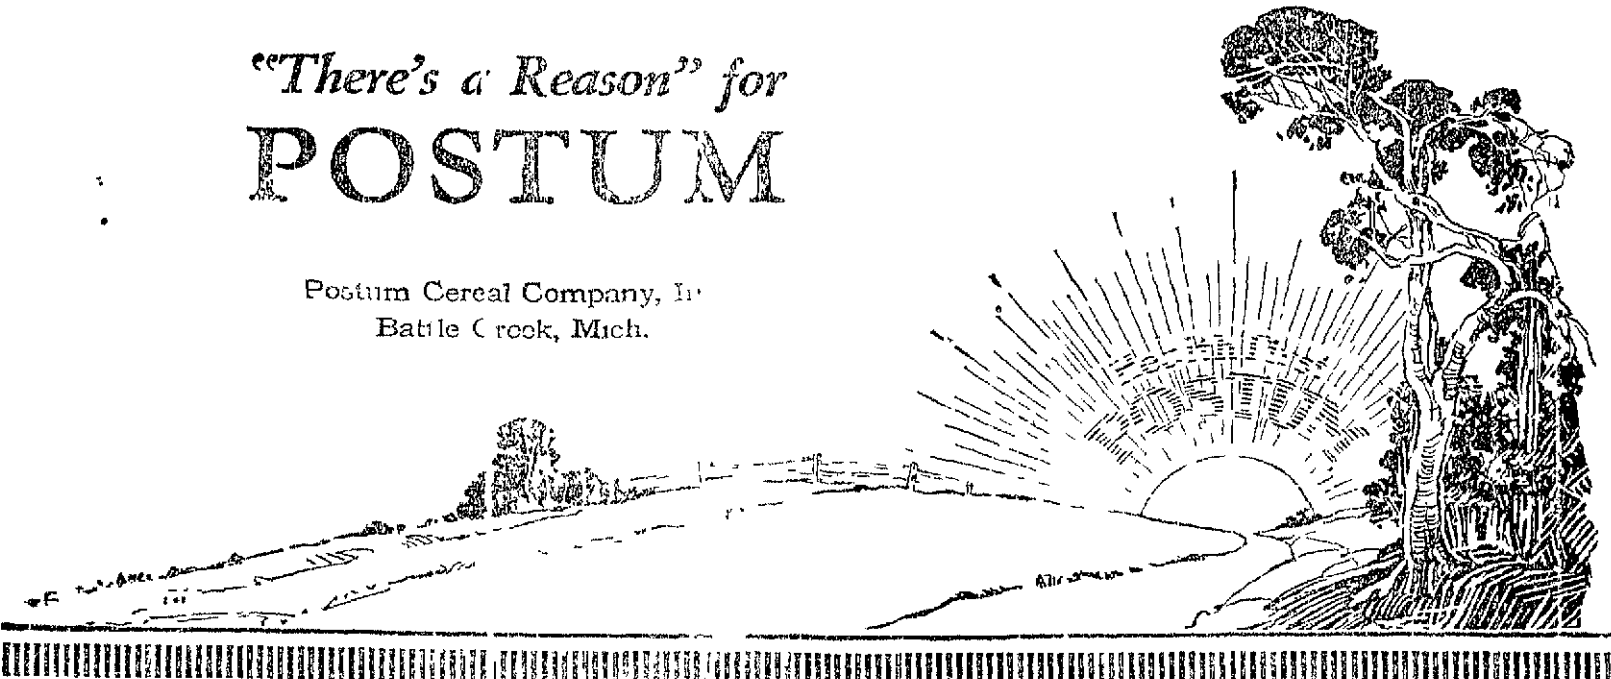

No fears, either that Postum will rob the night of sleep as coffee so often does. Postum is a friendly drink for any one any time. And it's good! When you've tried Postum a few days you'll wonder why you ever thought of sacrifice in leaving off coffee or tea. Rich and flavorful and satisfying, Postum suits the taste so that there's no longer any thought that you should drink it, only the thought that you want to drink it.

Postum opened the better road and the safe road for coffee and tea drinkers more than a quarter of a century ago, and a steadily increasing multitude is traveling that road—up and on to better enjoyment, better efficiency, better accomplishment.

You can buy Postum wherever good food and drink are sold and served. You can begin, now, this turn to the right road which you would so quickly recommend for Brown—by ordering Postum from your family grocer or telling your waiter at the restaurant to serve you Postum instead of coffee or tea.

Make Postum according to directions and enjoy its delicious flavor; find the change in "feeling" after a week's use of Postum. Let the family join you in the trip up the sunrise way.

You'd know what to say to Brown—say it to yourself.

### How to Make Pine Cough Syrup at Home

It is as good for bronchitis, pneumonia, and whooping cough as any other.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several powerful elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine is famous for this purpose.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup.

To make the best pine cough remedy that money can buy, put 2½ ounces of Pine in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more, if you can buy ready-made for three times the money. It is pure, good, and very pleasant—children take it eagerly.

You can feel this taste hold of a cough or cold in a way that most remedies cannot. The cough may be dry, hoarse and tight, or may be persistently loose from the format on of phlegm. The cause is the same—inflamed membranes—and the Pine and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchitis as long, hoarseness, or any ordinary throat ailment.

Pine is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Pine" with directions as to how to use it. Nothing else. Guaranteed to give absolute satisfaction or money refunded. The Pine Co., St. Louis, Ind.

### THE NEWEST NOTES IN HATS

Lace Still Much Used and Sometimes Seen in Streamers That Hang to the Waistline.

Lace is a becoming and decorative note which is still much used. It is sometimes seen in long streamers that fall from the brim across the back and hang to the waistline, or, again, it is draped at one side. There are some shadow designs just the Spanish lace are particularly interesting and quite different from anything used during the summer, because of their delicately heavy pattern and silky weaves. Metallic lace in gold and silver are decorative for evening hats.

## DINKING WATER REELY IS URGED ON BOYS AND GIRLS

Essential to Health and Growth  
Expert Tells Mount Pleasant Students.

### ALL IN CLASSES GAINING

Funeral Services Held For Mrs. Mary Kahn; School of Missions of Baptist Church Makes Excellent Record; Red Cross Election Set For Tonight.

Special to The Courier  
MOUNT PLEASANT, Nov. 22.—Miss Beattie Collins instructor in home economics extension service of State college, conducted classes in the auditorium Monday in the first and third ward buildings. Every child with the exception of one responded and gained something during the week. Mildred Nixon, Wilda Hare and Lida Carr each gained one and one-fourth pounds, while Edith Lemmon gained two and one-fourth pounds. Miss Collins was assisted by Miss Anna Galley, Miss Nanna Haslund and Mrs. Samuel Warden. The visitors were Mrs. Lowe, Mrs. Lemmon and Mrs. Stumeo.

The lesson for the week was on water. Miss Collins told the students that to be healthy they must drink water, from four to six glasses a day—one before breakfast, never to wash down food, eat plenty of fresh foods, vegetables, for they contain water. She said that 68 per cent of the body was water.

**School of Missions Success.**  
The school of missions that is being conducted at the First Baptist church on Wednesday evenings is a decided success. Forty-seven were present on last Wednesday evening and an even larger crowd is hoped for on Wednesday evening.

**Funeral of Mrs. Kahn.**  
Funeral services for Mrs. Mary Kahn were held yesterday afternoon at her home in charge of Rev. J. A. Droe, pastor of the First Baptist church. Interment followed in the Mount Pleasant cemetery.

**Red Cross Election.**  
Election of officers for the coming year for the Mount Pleasant chapter of the Red Cross will be held in the Bank & Trust assembly rooms this evening.

**Personal News.**  
Miss Margaret Stifford spent the week-end at her home at Brownsville.

Miss Catherine Matthews of Jeannette spent the week-end with the Misses Stuber of College avenue.

## BEFORE HEALTH BREAKS DOWN

Miss People Take Panto-Mangan, the Blood Builder.

The prevention of sickness is one of the greatest works of the public health authorities. People are being taught how to take care of their bodies so that they can avoid sickness in schools children are being taught hygiene. Serious illness can be avoided by proper care of the health. Pale faces, sickly bodies, loss of appetite and sleep, headaches and nervousness are usually signs of weak blood. With poor blood, the body has no resistance.

Diseases germs have an easy time of it. People are learning the necessity of keeping blood in good condition. They take Guido's Panto-Mangan when they feel run down. That keeps blood normal so that it can resist disease. It is sold in both liquid and tablet form at drug stores—Advertisement.

## At the Theatres

THE SOISSON.

"SCRAMBLED WIVES," a First National picture with Marguerite Clark in the stellar role, is the feature picture today and tomorrow. The play was written by Adelaide Matthews and Martha M. Stanley and has to do with the laughable trials and tribulations of Miss Mary Lucile Smith, a girl who "just can't make her ideas behave," portrayed by Marguerite Clark. The plot hinges around the desperate efforts of Mary Lucile to keep from an ardent suitor the fact that she has an ex-husband living and the equally desperate efforts of the ex-husband to prevent his wife from learning the identity of the young woman with whom he had once eloped and from whom he had been promptly parted by an amendment of the marriage. An excellent supporting cast is to be seen with Miss Clark, her leading man being Leon P. Gordon. Other prominent players are Ralph Bunker, Florence Martin, Virginia Lee, Alice Mann, Frank Badgley and T. A. Braddon.

THE PARAMOUNT.

"RAINBOW," featuring Alice Calhoun, is the leading attraction at this theatre today. The story of "Rainbow" deals with the adventures of a young girl brought up by three foster fathers who are engaged in working a mine left by her father. Through the duplicity of an uncle the mine was sold and a claimant appears on the property much to the disgust of the three daddies. After numerous dramatic situations the young girl learns that the mine is the rightful owner of the mine and prepares to surrender it to him. The youth however suggests they form a life-long partnership, in which the ownership of the

SMITHFIELD Nov. 22.—Mr. and Mrs. D. O. Little of Uniontown spent the week end with the Little family at Smithfield.

The Smithfield high school football team lost a very close and interesting game to North Union High school 7 to 6. North Union used six substitutes while the home team made no changes in its lineup. The game was played in a hard rain and the lines were down on the field. Glenn started for the home team. After the game the Smithfield boys were treated to a feed of a hot and delicious meal.

Robert Glenn son of Mr. and Mrs. Charles Glenn had his leg broken while playing football at the school. The bleeding was not at the home of Thelma Malone in Liberty.

**A 5-gallon can of the finest  
cold-weather motor oil made \$3.75**

Winter places an added burden upon a motor lubricant. The oil must resist cold as well as the intense heat of the motor. Ordinary oils are not specifically built to meet this two-fold requirement.

So from now on your motor needs ATLANTIC POLARINE.

Get it from your dealer before November 29th, and you'll not only get the finest cold-weather oil that's made, but you'll save money on the price. It will pay you to lay in a supply.

\$3.75 a 5-gallon can is way below the regular price. It is a limited-time inducement made to acquaint every motorist and truck owner with the remarkable qualities of this extraordinary motor oil.

ATLANTIC POLARINE is a correct cold-weather motor oil for practically every car or truck that runs. There is no other oil like it. None has its peculiar refinement and character. None has so wide a temperature range. Its "cold test" is unusual. It flows freely at zero—reaches the closest-fitting bearings from the moment the motor is started. It won't congeal and clog up the passages—no danger of bearings lacking lubrication while the oil is being warmed up.

### High School Will Meet Dunbar Township Eleven Here on Thanksgiving

For First Time the Dunbarites  
Have Even Oppor-  
tunity.

#### GREAT CROWD EXPECTED

Probably the greatest crowd which ever attended a Dunbar Township-Connelville High school football game will be on hand Thanksgiving Day when these two outfits come together in their annual set-to. In addition to the date being a holiday and the game here as the biggest afternoon attraction there will be many attracted, especially from Dunbar township, by the prospects of a hard struggle.

Though it is hard to admit it, Dunbar Township should stand a chance with the Cokers this year. The Connelville team has shown excellent form against adversaries of its own weight, however, and may prove too

strong an outfit for the township. On the other hand the Dunbarites have a fine record. Since the opening of the season the team has been pointed for Connelville and will be in its best playing form for the clash. There may be just the least bit of laxity on part of the Coker players because of that inherent feeling that the team here is just naturally stronger.

Anyway, it has to be acknowledged that Dunbar township, used in former days to fill an early season date merely to give the locals a practice game, has made a wonderful advance to be given the Thanksgiving date, one of the choicest on the schedule and generally filled by the Washington High team.

There are no individual stars in the township lineup and neither are there any playing with the Cokers. This alone will tend to make the game a real contest and it will be a machine trained by one man against that of another. Scoring ability alone will result in touchdowns.

Connelville is considered to be the

stronger eleven because of the showing made against some of the leading teams of Western Pennsylvania. The experience of playing three hard games should prove all right to the locals on Thursday. The township squad has not played any out-of-state games as Washington, Johnstown or Greensburg, but nevertheless its members feel that they will be able to upset the odds on Thanksgiving.

### Tornadoes Hope To Defeat Best In Brownsville

The Connelville Tornadoes play at Uniontown next Saturday when the South Brownsville team will be met. The delegation from the other end of the county refused to come to Connelville. Then after guaranteeing the beans \$100 to play at the county-seat backed out of the agreement. They proposed that "winner take all."

The Tornadoes, except at a strong one but this fact does not freeze the locals. The Tornadoes do not know their own strength. Every team played this season was supposed to be champion of its own territory and just so many champions have fallen.

Reports reaching here are that the Brownsville team will have some new faces in it Saturday. This has not even caused a ripple of worry among the Brown and White gadders. In fact they are anxious to meet a really strong team—one which can test their abilities to the limit.

The Tornadoes are practicing diligently for the coming fray with the Monongahela River city team. There is a full turnout each night at Fayette Field. Blackboard drills are also being held.

The Tornadoes will change their signal for the Brownsville game.

If the weather does not become too unfavorable, the Tornadoes intend to play football up to Christmas.

The Connelville Tornadoes expect to take a big crowd of rooters to Uniontown Saturday when Brownsville will be played.

The Connelville "Tornadoes" is the nick name the team has in this city.

"They may be tomatoes but they have never been quashed," piped one bright youth for a recent game.

It is possible basketball will be back in the game Saturday. This basketball has not been with the team during the past three games.

Many fans howled because Dunbar Township was scheduled for Thanksgiving Day. They said they wanted to see a good game. If they go to Fayette Field, they will.

It seems, there are about five men, all regarded with equal respect and popularity, on the high school team eligible for the captaincy next season. It should be possible to select a good leader from this group.

One more game and then the molecular will be laid away for another year.

Referee "Rube" Herwick says he has been officiating for 18 years and yet he doesn't look much older than that. Before becoming an official he was quite a figure in local grid games.

A member of the high school faculty says he wonders why the gymnasium doesn't make it possible for a few grid stars who have to support themselves, to go to school during their eligible years. There are several of high school age forced to abandon their educational training and go to work because of financial conditions. This is one reason why the "Cokers" haven't been having the best kind of a team.

### Says His Prescription Has Powerful Influence Over Rheumatism

Discoverer Tells Connelville Drug Store and All Good Druggists Not to Take a Cent of Anyone's Money Unless Allenhu Completely Banishes All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work. He finally decided, after years of cautious study, that no one can be free from rheumatism until the accumulated impurities commonly called uric acid deposits were dissolved in the joints and muscles and expelled from the body. With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system. He freely gave his discovery to others, who took it, with what might be called marvelous success. After years of urging he decided to let others everywhere know about his discovery through the newspapers. Connelville Drug Store has been appointed agent for Allenhu in this vicinity with the understanding that they will freely return the purchase money on the first two bottles to all who state they received no benefit. ## Carter and Donnelly to Fight Dec. 1

Because of the request of several hundred fight fans of Uniontown to postpone the date for the Jimmy Donnelly-Billy Carter 10-round feature bout one day, Matchmaker Duke Barry announces that these two highly touted ringsters will come together on Thursday, December 1 instead of the 30th of this month. The change was due to several other interesting fights scheduled to take place at the boutseat on the date first announced.

The one day of grace given the boxers will undoubtedly do them a world of good as each is training hard for the fray. Billy Carter has opened training quarters on the top floor of the St. James hotel, using the big room formerly occupied by the dining room. Carter's training quarters will be open to the public every evening as the local king of the punch wants the fans to see he is training diligently for the former Uniontown bash.

With the announcement of the change of date Duke Barry states that he has signed the semi-finalists having secured two boys whom he has frequently been asked to bring here. This number, of eight rounds, will show Jackie Froume, the popular little favorite of Puttman, and Mike Moran of Mount Washington. This bout is a feature one in itself and goes to show that Barry intends to give more than his usual high standard in making this show the banner one of all ever held here. Both Moran and Froume are warm favorites here and as they have been anxious to meet for some time the bout will undoubtedly arouse as much interest as the main encounter.

Donnelly sends word from Newark N. J., where he makes his headquarters that he has been matched to meet West side Jimmy Duffy, the feature bout of 12-rounds before the Pioneer Sporting club of New York city and will hook up with Joe Madetti in a 20-round melee at New Orleans on December 17.

The Carter-Donnelly contest has the fans worked up through the remarkable form shown by Carter in defeating Tommy Phillips who mowed down his last 15 opponents and the wonderful showing that Donnelly is making in eastern rings. The advance sale of seat reservations is one of the big features of the mill.

## DAMAGES AWARDED FOR UNFAIRNESS IN DISTRIBUTING CARS

After 14 days of litigation in the various courts a case was finally decided by the United States Supreme Court on Monday when it was ruled that a restraining order of the Interstate Commerce Commission is a valid restraining order for undue preference practiced by the Pennsylvania Railroad company in the distribution of cars among the Clearfield region. The opinion of the court delivered by Justice Day. It was held that a plaintiff is entitled to recover in a suit for undue preference ordered by the Interstate Commerce Commission when there is testimony fairly tending to show that recovery was justified because of unfair practices in the distribution of coal cars in times of shortage, which practices, as its re-

## GIBSON COUNCIL HEARS PLEAS FOR BETTER HIGHWAYS

President of Capstan Glass Company and Coal Operator Offer Aid.

### ARE NEARLY IMPASSABLE

Glass Official Offers to Put on Surface of Road to Plant if Council Will Provide the Base; C. Roy Hetzel Is Also Willing to Go Fifty-Fifty.

SOUTH CONNELLSVILLE, Nov. 22.—Council held a special meeting last evening at which the new ordinance governing the police was given second reading.

After the ordinance was read, Fred Riemann, president of the Capstan Glass company, addressed the council. He drew attention to the output of the company and the amount that it could turn out if business would pick up. As it is, the company now is running but one furnace and has one idle. Also he stated that the glass company is giving steady employment to a large number of South Conneltsville people. The point that Mr. Riemann emphasized was that the company would like to get a passable road from the factory into Conneltsville. At present the road is good from Woodlawn avenue to Wine street and between Evans street and Second street. Mr. Riemann said that the glass company would be willing to meet council half way and if it would furnish a base for the road the Capstan company would get on the top cover. As the roads from the factory stand now, they are in a "terrible condition."

Another point Mr. Riemann brought out was that the company purchases its coal from nearly every coal company in South Conneltsville and that if the roads were repaired the coal wagons would have better traveling. At present it is impossible to get a truck of large size to the factory, he said.

C. Roy Hetzel also talked to council in behalf of better roads. Mr. Hetzel has purchased a coal mine in South Conneltsville and he claims the roads in and out of his mine are passable only with horse and wagon. Mr. Hetzel said he is willing to cooperate

with council in repairs. Some of Mr. Hetzel's property is covered with stone, which he is willing to furnish council free.

Council gave assurance that it will "look into the matter."

Scene for High School. A scene which gives proper weight and height arrived at the Gibson high school from Chicago on Saturday and it will be used by the pupils in finding out "just how big they really are."

Baby Boy Born. A baby boy was born at the home of Mr. and Mrs. E. L. Langer of Second street Saturday morning and died yesterday morning at 10:30 o'clock.

Personal Mention. Andrew Vinoski, hunting near Detwiler's mill Saturday, shot six rabbits, a squirrel and a pheasant.

J. W. Kenner returned Saturday evening from the vicinity of Chambersland, Md., where he had been hunting. He bagged seven rabbits, two squirrels and two pheasants.

Mr. and Mrs. R. E. Thrush returned Sunday to their future home at Duquesne after spending a visit at the home of Mr. and Mrs. W. A. Walker.

Mrs. Thrush was formerly Mrs. Father Ruth Walker. They motored home.

Mrs. H. J. DeBolt of Pittsburgh street spent Friday in Pittsburgh.

Miss Margaret Splishak spent Sunday with her grandmother, Mrs. Susan V. of Leisnering No. 3.

### By Way of a Promise

NEXT Friday morning when the store opens its doors, you'll find that—overnight almost—its entire aspect has changed and that Christmas has come to it.

What sort of Christmas shall it be? We think we can tell you—a real old, good old, merry holiday when your heart will fairly bubble with joy as it did when we all were kids.

The prediction is based upon a survey of our stocks (you will marvel at their completeness) a survey of prices (reduced on the average 40%) and the fact that now that the war and reconstruction is over the stage is set for the merriest sort of Yuletide that Dickens used to write about.

AND how has Wright-Metzler Store prepared for it? Friday will tell you.

Toys that are beyond description; regal silks and satins; perfumes; jewelry; ribbon novelties; pictures; neckties; furs—we might go on almost forever.

But—beyond all that—we pledge you will find us in service, in a real desire to do as much for you as we possibly can—YOUR STORE FOR A GOOD OLD FASHIONED CHRISTMAS.

We may fall sometimes—but it will never be for lack of trying!

### An Unusual Offer

Why not let us deliver a New Edison to your home, along with a selection of Edison Re-Creations that you may judge its mettle for yourself?

If you decide to buy, the payments may be arranged to suit your convenience. And the only security asked will be a "Gentleman's Agreement."

So perfect is the New Edison's Re-Creation of music that it is impossible to distinguish between the real and the recreated voice of the singer. That your own ears can tell.

The price ranges \$95 up. We'll be glad to have you test the Edison's merit, any time, any day, at a concert in our Edison Parlor.
